

Ethics Review Manager for Ethics Committees

ethics^{rm} is a cost-effective, online ethics application system that helps streamline the ethics submission and review process. The software is ready to use out-of-the-box and is flexible enough to be configured.

Key Benefits

- **Convenient access:** from any web browser, tablet or mobile phone
- **Customisable workflow:** automatically route applications through the review process
- **Powerful form builder:** design and maintain your own forms
- **Manage meetings online:** assign applications, reviewers, generate minutes
- **Automated communications:** letters, emails and alerts created and sent at specified points in the workflow
- **Full reporting functionality:** build your own reports
- **Supports collaboration:** between investigators, administrators and reviewers

“We received excellent support from Infonetica, but **ethics^{RM}** is so easy to use that we were able to carry out a lot of the set-up ourselves. We have been able to build a process flow that works and is user friendly. Feedback has been very positive.”
