

**Manage all your compliance training online**

**WHITEHALL TRAINING** is a learning management system that provides accredited and certified online training courses to meet your specific learning needs. Our courses meet the tough demands of the clinical research and pharmaceutical sectors - structured around the need to prove that learners have been adequately and effectively trained, with content that is 100% up-to-date.

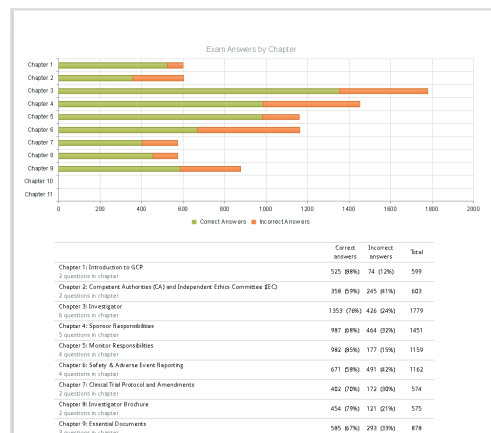

**Key Benefits**

- **Simple management of trainees:** Assign courses and track trainee progress through our simple user interface
- **Comprehensive reporting:** Analyse course completion and easily generate information required for audits
- **Accredited courses in multiple languages:**
  - Good Clinical Practice (Transcelerate approved)
  - Good Clinical Laboratory Practice
  - Pharmacovigilance
  - Good Distribution practice
  - Good Manufacturing Practice
  - Good Laboratory Practice
- **Host your own courses on our system**

**Clear, uncluttered, user-friendly layout**

**Full reporting at learner or cohort level**

“Since 2009, Infonetica has provided Synexus with an effective Good Clinical Practice training programme. As a global organization performing clinical trials services, it is essential for Synexus to work with other companies who achieve the same high service levels.”
